

# Table of Contents

## Activity

- 1 Identifying Values of Selected Digits in Whole Numbers
- 2 Identifying Values of Selected Digits in Decimals
- 3 Rounding Whole Numbers
- 4 Rounding Decimals
- 5 Powers of Whole Numbers
- 6 Writing Numbers from Expanded Notation
- 7 Writing Whole Numbers from Word Descriptions
- 8 Writing Decimals
- 9 Estimating Answers in Addition of Two Whole Numbers
- 10 Estimating Answers in Addition of Three Whole Numbers
- 11 Estimating Answers in Subtraction of Whole Numbers
- 12 Estimating Answers in Subtraction of Whole Numbers
- 13 Estimating Answers in Multiplication of Whole Numbers
- 14 Estimating Answers in Multiplication of Whole Numbers
- 15 Estimating Answers in Division of Whole Numbers
- 16 Estimating Answers in Division of Whole Numbers
- 17 Estimating Answers in Addition of Decimals
- 18 Estimating Answers in Addition of Dollar Amounts
- 19 Estimating Answers in Subtraction of Decimals
- 20 Estimating Answers in Subtraction of Dollar Amounts
- 21 Estimating Answers in Multiplication of Decimals
- 22 Estimating Answers in Multiplication Using Dollar Amounts
- 23 Estimating Answers in Division of Decimals
- 24 Estimating Answers in Division Using Dollar Amounts
- 25 Selecting Best Customary Units for Measuring
- 26 Selecting Best Metric Units for Measuring

## Activity

- 27 Finding Lengths Using the Nearest Whole Unit
- 28 Estimating the Circumferences of Circles
- 29 Finding Lengths Using Nearest Whole Unit on an Inch Ruler
- 30 Finding Lengths Using Nearest Whole Unit on a Centimeter Ruler
- 31 Estimating Areas of Closed Straight-Line Figures Using Grids
- 32 Estimating Areas of Rectangles by Measuring Lengths and Widths
- 33 Estimating Areas of Closed Curves Using Grids
- 34 Estimating Solutions to Miscellaneous Types of Problems
- 35 Estimating Solutions to Miscellaneous Types of Problems
- 36 Counting Rectangles, Squares, and Triangles

**Solution Key** (See pages following Activity 36.)
