Write an algebraic expression for each word expression.

Five greater than an unknown number

An unknown number decreased by four

Four more than an unknown number

Six less than an unknown number

Six less an unknown number

An unknown number increased by ten

Twice an unknown number.

Seven divided by an unknown number

An unknown number diminished by eight

The product of five and an unknown number

Six plus an unknown number

An unknown number tripled

An unknown number divided by seven

Four decreased by an unknown number

Eight less an unknown number
